COLQUITT ON A. AND M. COLLEGE.

Whatever else we may think of Hon. Colquitt, a broad commissioner and candidate for governor, it cannot be denied that he is a shrewd politician and knows as well as any man in Texas how to trim his sails to catch the breeze. It is therefore a gratifying evidence of the great and growing popularity of the A. and M. College that he declares himself unreservedly in favor of a liberal policy toward that institution. In a recent interview with the Eagle he attracted wide attention and said:

"I regard the A. and M. College as one of the best investments we have made in Texas. I have never been in sympathy with the niggardly policy that has always prevailed toward this institution, and I am in favor of appropriating enough money to enlarge this institution not only so that it will be large enough to take care of the young men and women of Texas, who desire its advantages, but also to make it the best institution of its kind in the United States."

While the Eagle is neither boosting nor knocking any of the candidates for governor, it takes this occasion to remark that the people of Bryan and Brazos county cannot afford to support any man for governor without assurance that he will not blue-pencil appropriations for A. and M. College.

Senator Bob Taylor of Tennessee, comes out in favor of Senator Culberson for president in 1912. Some Texans will push-hooh the idea but there is good reason to believe that the senior Texas senator will prove to be a strong candidate. It is not impossible that William J. Bryan will favor him above all others and last year his availability was discussed favorably by many democrats who opposed Bryan. Culberson has maintained his position as a great leader for many years without antagonizing any important element of the national democratic party.

San Angelo is mad through and through because the Fort Worth board of trade endorsed Amarillo for the West Texas normal and the stockmen of Concholand threaten to ship all their cattle to Kansas City, giving Fort Worth the go-by. This comes of Fort Worth's failure to heed the lesson in Solomon's proverb: "He who meddles with strife that concerneth him not is like one who taketh a dog by the ears." If it is not your dog fight keep hands off and avoid the risk of getting bitten.

Canyon City and Dr. Cook have each sprung from obscurity to fame at a single bound.

There are too many public officers who look out for themselves and their friends first, leaving only the residue of their service for the public—if there be any residue.

In the world-wide ovation to Dr. Cook, Teddy, the mighty hunter who slaughters animals rounded up for him by native bush beaters, has been entirely forgotten.

Fort Worth has undertaken to clean out her Augean stables commonly known as "Hell's Half Acre," and the loathsome vermin that have infested that delectable locality are sattering in every direction. Several of these obscene birds have been caught and caged in Dallas. The peace officers of every town in Texas should be on the lookout for others. If suffered to build a nest anywhere the stench would soon become as insufferable as it was in their original habitat.

bothered greatly by irregular passages of the kidney secretions. Finally I had the good fortune to hear of Doan's Kidney Pills and making up my mind to try them, I obtained a box at Emanuel & Maloney's drug store.
